

Interim report

January–June 2017

Sustained good growth and profitability

Quarter April-June 2017

- Revenue from Property Management amounted to MSEK 568 (464). Adjusted for currency effects and comparable units, the increase was 3 percent.
- Net operating income from Property Management amounted to MSEK 485 (398). Adjusted for currency effects and comparable units, the increase was 2 percent.
- Net operating income from Operator Activities amounted to MSEK 139 (125). Adjusted for currency effects and comparable units, the increase was 29 percent.
- EBITDA amounted to MSEK 594 (491).
- Profit for the period amounted to MSEK 887 (474).
- · Cash earnings amounted to MSEK 425 (354).
- Earnings per share amounted to SEK 5.61 (3.14).

Period January-June 2017

- Revenue from Property Management amounted to MSEK 1,042 (850). Adjusted for currency effects and comparable units, the increase was 6 percent.
- Net operating income from Property Management amounted to MSEK 881 (718). Adjusted for currency effects and comparable units, the increase was 5 percent.
- Net operating income from Operator Activities amounted to MSEK 221 (179). Adjusted for currency effects and comparable units, the increase was 21 percent.
- EBITDA amounted to MSEK 1,044 (841).
- Profit for the period amounted to MSEK 1,414 (850).
- Cash earnings amounted to MSEK 715 (589).
- Earnings per share amounted to SEK 8.92 (5.63).
- EPRA NAV per share amounted to SEK 132.55 (114.03).

Significant events during the period

- Pandox reclassifies seven hotel properties in the Nordics to Property Management in the second quarter.
- Pandox concludes the acquisition of Hotel Berlaymont in Brussels for the equivalent of around MSEK 324 in May.

CEO comment

Sustained good growth and profitability

Strong earnings trend

Pandox is reporting an increase in both cash earnings and net asset value of 20 percent for the second quarter. This improvement was driven by a hotel market that remained strong, with an increase in occupancy and average prices in both larger cities and regional hubs. The positive calendar effect from the first quarter was neutralised in the second quarter.

Adjusted for currency effects and comparable units, net operating income increased by 2 percent, supported by good development throughout the lease portfolio.

Adjusted for currency effects and comparable units, net operating income from Operator Activities increased by 29 percent, driven mainly by a strong recovery in Brussels.

Pandox's good earnings trend clearly illustrates the benefits of a well-diversified portfolio of hotel properties in which demand is balanced between different countries, locations and guest segments, thereby mitigating business risk.

High level of activity in key markets

Pandox's hotel portfolio benefitted during the quarter from an active conference and trade fair calendar in many markets as well as good demand from the business and leisure segments.

Growth was evenly split between cities with international and domestic demand. It is worth noting that regional cities in all key markets enjoyed strong growth.

The lease portfolio in Finland developed particularly well, supported by increased economic optimism accompanied by increased regional demand, as well as strong international demand in Helsinki.

The recovery in Brussels was strong and Germany remained stable.

Growth in Stockholm weakened slightly due to new room capacity and a more uneven neutralisation of previous positive calendar effects than in other Nordic capitals. However, the underlying demand in Stockholm is still good. No negative effects were noted after the terrorist attack in April.

Fast pace for business and investment

In the second quarter Pandox concluded leasing and reclassification of seven operator hotels in the Nordics, giving the Company more scope for strategic action. This provides opportunities for us to be active. One example is our acquisition of Hotel Berlaymont which strengthens Pandox's position as the leading hotel property owner in Brussels. The hotel is in a strategic location in the EU district and work on upgrading the hotel product and strengthening its market position is in full swing. The Hotel Berlaymont acquisition demonstrates Pandox's ability to create value by identifying, acquiring and developing under-performing hotels.

However, most of Pandox's value creation takes place within the Company's existing hotel portfolio. The investment pace has been swift for an extended period and we have a significant pipeline of approved investments with good yield potential in both the Property Management and Operator Activities segments.

Pandox continuously evaluates the market for acquisitions in accordance with the Company's acquisition criteria.

Continued good market prospects

The activity level in Pandox's key markets is currently high.

Supported by previous acquisitions and anticipated organic growth driven by markets and profitable investments in the existing portfolio, the prospects are good for the remainder of the year.

20% Growth in total cash earnings¹

¹EBITDA plus financial income minus financial cost minus current tax.

"Pandox is reporting an increase in both cash earnings and net asset value of 20 percent. for the second quarter. This improvement was driven by a hotel market that remained strong, with an increase in occupancy and average prices in both larger cities and regional hubs."

Anders Nissen, CEO

A property company specialised in hotels

Pandox is an active owner with a business model focused on long-term revenue-based lease agreements with the market's best hotel operators. If these conditions are not in place Pandox has long experience of managing hotel operations itself. Pandox's specialist expertise and efficient management systems create opportunities to conduct business across the whole hotel value chain.

A strategy that creates value

Pandox's vision

"To be a world-leading hotel property company with expertise in active ownership hotel property management and development, as well as hotel operation."

Overall objectives

"With support from specialist expertise and effective management systems' increase cash flow and property value – hotel property by hotel property – and thereby make room for investments that support Pandox's continued expansion."

Strategy and business model

1

Focus on hotel properties

2

Large hotel properties in good locations

3

Long-term revenue-based leases with the best hotel operators

4

A high quality hotel property portfolio

5

Geographical diversification reduces fluctuations

6

²⁾ Defined as interest-bearing liabilities minus liquid funds in relation to the market value of the properties at the end of the period.

Hotel market development April-June 2017

As complete market data has not yet been published for June 2017, the RevPAR growth for most markets below refers to the period April–May 2017, i.e. not the full report period. RevPAR growth for Stockholm, Oslo and Copenhagen is for the period April–June 2017, i.e. the full report period.

Expansive global growth supported the tourism market

The global tourism market was strong and demand in the hotel industry benefitted from expansive global growth in the quarter. Europe experienced good economic growth, driven in part by Germany, Spain and the Nordic countries. The hotel markets in both North America and Europe developed well in general taking into account a somewhat negative effect of the dates of Easter (in April instead of March as in the previous year).

Sustained growth in all key markets

Source: STR (USA, Canada, Europe, Finland), Benchmarking Alliance (Sweden, Norway, Denmark).

USA stable, Canada stronger

RevPAR increased in the USA for the 87th consecutive month. The market has entered a slower period, with stable occupancy where average prices are driving growth. Canada has entered a strong period, driven among other things by a weak currency, limited new capacity and increasingly strong regional markets. In Montreal, which is celebrating its 375th anniversary with a packed calendar of events, RevPAR returned to double-digit growth for April-May with strong demand from Asia and the USA.

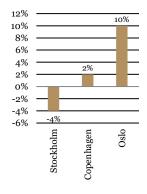

Strong growth in Europe

The hotel markets in Europe as a whole saw strong development in April-May, with an increase in RevPAR of 7 percent as a result of both growing demand and improved average prices. Growth was dampened by a certain negative calendar effect. Large hotel markets, such as Spain and Germany, reported strong growth figures and essentially all large European cities developed positively. The UK/London had a strong April-May, partly due to a weakened GBP. In Brussels RevPAR increased by 28 percent in April-May, supported by stronger demand in all segments. Several cities in Germany, including Cologne and Düsseldorf, experienced a strong trend during the same period, supported by several large events and conferences.

Stable development in the Nordics

The Nordic countries continued to benefit from a good economic trend. The calendar effect of the Easter dates varied from capital to capital, where Stockholm, in combination with a strong inflow of new room capacity, saw a decline in RevPAR of 4 percent in April-June. However, the underlying demand in Stockholm remained good and RevPAR increased by a total of 2 percent for the first six months of the year. RevPAR growth in Oslo was 10 percent in April-June, supported by a combination of capacity constraints in the market due to renovation activity and a positive effect of the Nor-Shipping exhibition. Copenhagen faced strong comparative figures and RevPAR growth stagnated at 2 percent in April-June after an extended period of double-digit growth. Copenhagen will be affected by the opening of several hotels over the next few years. Helsinki continued to develop well and the new capacity of around 700 rooms has largely been absorbed by the market, at the same time as average prices have gradually improved.

Market data full report period RevPAR growth Q2 2017

¹Pandox does not have any direct business exposure to these markets but they are important for the assessment of the global hotel market.

 $^{^{\}rm 2}$ Growth Q2 2017 refers to the period April-May 2017.

Financial development April-June 2017

Comparable figures in brackets refer to the corresponding period the previous year for profit/loss items and year-end 2016 for balance sheet items unless otherwise stated.

Revenue and net sales

Revenue from Property Management amounted to MSEK 568 (464), an increase of 22 percent, driven by a combination of acquired and organic growth in the lease portfolio. Adjusted for currency effects and comparable units, revenue increased by 3 percent.

Revenue from Operator Activities amounted to MSEK 555 (536), an increase of 4 percent. During the period seven hotel properties were reclassified to Property Management on separate occasions (see page 9 for a list). Adjusted for currency effects and comparable units, revenue increased by 14 percent and RevPAR by 17 percent.

The Group's net sales amounted to MSEK 1,123 (1,000). Adjusted for currency effects and comparable units, net sales increased by 8 percent.

A calendar effect due to the dates of Easter (in April instead of March as in the previous year) was neutralised during the quarter.

Net operating income

Net operating income from Property Management amounted to MSEK 485 (398), an increase of 22 percent. Adjusted for currency effects and comparable units, net operating income increased by 2 percent.

Net operating income from Operator Activities amounted to MSEK 139 (125), an increase of 11 percent, supported mainly by improved results in Brussels. Adjusted for currency effects and comparable units, net operating income increased by 29 percent.

Total net operating income amounted to MSEK 624 (523), an increase of 19 percent.

Administration costs

Central administration costs amounted to MSEK -30 (-32).

EBITDA

EBITDA amounted to MSEK 594 (491), an increase of 21 percent, driven by improved net operating income for both Property Management and Operator Activities.

Financial income and expenses

Financial expenses amounted to MSEK -131 (-113), which is mainly explained by increased interest-bearing liabilities after acquisitions carried out. Financial income amounted to MSEK o (1).

Profit before changes in value

Profit before changes in value amounted to MSEK 417 (342), an increase of 22 percent.

Changes in value

Unrealised changes in value for Investment Properties amounted to MSEK 634 (319) and are explained by a combination of improved underlying cash flows in Pandox's property portfolio and the effect of reclassifications during the quarter. Realised changes in value for Investment Properties amounted to O (O).

Unrealised changes in value of derivatives amounted to MSEK 71 (-55).

Current and deferred tax

Current tax amounted to MSEK -38 (-25). The increase is mainly explained by positive results after acquisitions in Germany, Austria and the Netherlands. Deferred tax expense amounted to MSEK -197 (-107).

Profit for the period

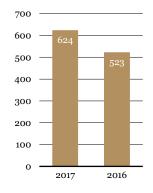

Profit for the period amounted to MSEK 887 (474) and profit for the period attributable to Parent Company shareholders amounted to MSEK 882 (471), which is equivalent to SEK 5.61 (3.14) per share.

Cash earnings

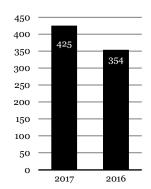

Cash earnings amounted to MSEK 425 (354), an increase of 20 percent.

Financial development January-June 2017

Comparable figures in brackets refer to the corresponding period the previous year for profit/loss items and year-end 2016 for balance sheet items unless otherwise stated.

Revenue and net sales

Revenue from Property Management amounted to MSEK 1,042 (850), an increase of 23 percent, driven by a combination of acquired and organic growth in the lease portfolio. Adjusted for currency effects and comparable units, revenue increased by 6 percent.

Revenue from Operator Activities amounted to MSEK 1,076 (978), an increase of 10 percent. Meininger Copenhagen was reclassified to Property Management on 1 January 2017 and seven hotel properties in the Nordics were reclassified to Property Management on separate occasions in the second quarter of 2017 (see page 9 for a list). Adjusted for currency effects and comparable units, revenue increased by 7 percent and RevPAR by 9 percent.

The Group's net sales amounted to MSEK 2,118 (1,828). Adjusted for currency effects and comparable units, net sales increased by 6 percent.

Net operating income

Net operating income from Property Management amounted to MSEK 881 (718), an increase of 23 percent. Adjusted for currency effects and comparable units, net operating income increased by 5 percent.

Net operating income from Operator Activities amounted to MSEK 221 (179), an increase of 23 percent, supported by improved results in Brussels in the second quarter compared with the previous year. Adjusted for currency effects and comparable units, net operating income increased by 21 percent.

Total net operating income amounted to MSEK 1,102 (897), an increase of 23 percent.

Administration costs

Central administration costs amounted to MSEK -58 (-56). The increase is explained by the Company's geographical expansion.

EBITDA

EBITDA amounted to MSEK 1,044 (841), an increase of 24 percent, driven by improved net operating income for both Property Management and Operator Activities.

Financial income and expenses

Financial expenses amounted to MSEK -262 (-227), which is mainly explained by increased interest-bearing liabilities after acquisitions carried out. Financial income amounted to MSEK 1 (1).

Profit before changes in value

Profit before changes in value amounted to MSEK 697 (542), an increase of 29 percent.

Changes in value

Unrealised changes in value for Investment Properties amounted to MSEK 942 (519) and are explained by a combination of improved underlying cash flows in Pandox's property portfolio and the effect of reclassifications during the quarter. Realised changes in value for Investment Properties amounted to MSEK 0 (159).

Unrealised changes in the value of derivatives amounted to MSEK 148 (-179).

Current and deferred tax

Current tax amounted to MSEK -68 (-26). The increase is mainly explained by positive results after acquisitions in Germany, Austria and the Netherlands and by accrual effects during part of the comparative period. Deferred tax expense amounted to MSEK -305 (-165).

Profit for the period

Profit for the period amounted to MSEK 1,414 (850) and profit for the period attributable to Parent Company shareholders amounted to MSEK 1,405 (845), which is equivalent to SEK 8.92 (5.63) per share.

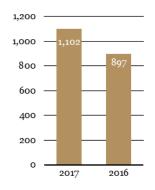

Cash earnings

Cash earnings amounted to MSEK 715 (589), an increase of 21 percent.

Comments on the period April-June 2017

Rental income and other property income amounted to MSEK 568 (464) and net operating income to MSEK 485 (398), an increase of 22 percent each. During the period seven hotel properties in the Nordics were reclassified to Property Management on separate occasions.

Adjusted for currency effects and comparable units, total rental income and net operating income increased by 3 and 2 percent respectively.

Development in the comparable lease portfolio remained strong, supported by broad based demand and increased average prices. Finland, Denmark and Germany saw the highest rental growth for the quarter.

Individual cities with particularly strong development were Helsinki, Oslo and Cologne.

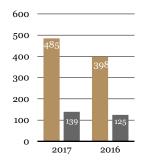

The seven hotel properties in Europe acquired in December 2016 developed according to plan.

All regional cities in the lease portfolio developed well, which reflects stronger regional economic growth and increased demand for hotel rooms as a result.

On 30 June 2017, the weighted average unexpired lease term (WAULT) for Investment Properties was of 13.9 years (31 December 2016: 13.9).

Revenue for the quarter from the nine external asset management agreements in Oslo amounted to 0.8 (0.7) MSEK.

Revenues	555	536	1,076	978	2,158
Costs	-462	-448	-941	-872	-1,866
Gross profit	93	88	135	106	292
Add: Depreciation included in costs	46	37	86	73	147
Net operating income	139	125	221	179	439

Comments on the period April--June 2017

Revenue from Operator Activities amounted to MSEK 555 (536) and net operating income to MSEK 139 (125), an increase of 4 and 11 percent respectively, despite reclassification of Meininger Copenhagen on 1 January 2017 and currently seven hotels in the Nordics to Property Management in the second quarter of 2017.

The net operating margin improved to 25.0 (23.3) percent.

Adjusted for currency effects and comparable units, revenue and net operating income increased by 14 percent and 29 percent respectively. The improvement is mainly explained by Brussels, where net operating income adjusted for currency effects and comparable units almost doubled. Canada and Germany also developed well with a combined increase in net operating income of 10 percent.

Adjusted for currency effects and comparable units, RevPAR increased by 17 percent. Revenue from Grand Hotel Oslo up to 25 April 2017 when the agreement ended amounted to MSEK 49 (39) and net operating income to MSEK -5 (-4).

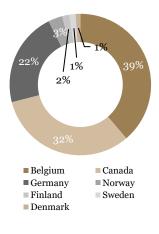

Adjusted for Grand Hotel Oslo, the net operating margin for Operator Activities was 28.5 (26.0) percent.

Change in property values

At the end of the period, Pandox's property portfolio had a total market value of MSEK 39,868 (38,233), of which MSEK 33,055 (30,163) was for Investment Properties and MSEK 6,813 (8,070) for Operating Properties. The market value of Operating Properties is reported for disclosure purposes only and is included in EPRA NAV. Eight hotel properties have been reclassified from Operator Activities, of which seven in the second quarter which is also when Hotel Berlaymont was acquired. Operating Properties are recognised at cost less depreciation and any impairment. At the end of the period, the carrying amount of the Operating Properties portfolio was MSEK 5,161 (6,415). The decrease is mainly the result of the reclassifications.

Property valuation

MSFK

Pandox performs internal valuations of its hotel property portfolio. Investment properties are recognised at fair value in accordance with accounting standard IAS 40. Operating properties are recognised at cost less accumulated depreciation and any accumulated impairment losses. The market value of Operating properties is reported for information purposes only and is included in EPRA NAV.

The valuation model consists of an accepted and proven cash flow model, where the future cash flows the hotel properties are expected to generate are discounted. The valuation is based on the business plan for the hotel concerned, which is updated at least twice a year and takes into consideration, among other things, developments in the underlying operator activities, market developments, the contract situation. operating and maintenance issues and investments aimed at maximizing the hotel property's cash flow and return in the long-term.

External valuations of all properties are carried out annually by independent property appraisers. The external appraisers complete a more in-depth inspection at least every three years or in conjunction with major changes to the properties. The external valuations provide an important reference point for Pandox's internal valuations.

In the second quarter Pandox had external valuations performed on a quarter of the properties in its portfolio. The external valuation results are in line with and confirm Pandox's internal valuations.

For an overview of the property portfolio by segment, geography and brand, please see page 24.

² Refers to divestment of FF&I Grand Hotel Oslo Q2 2017.

Financing

Comparable figures in brackets refer to the corresponding period the previous year for profit/loss items and year-end 2016 for balance sheet items, unless otherwise stated.

Financial position and net asset value

At the end of the period loan-to-value net was 47.7 (47.9) percent. Equity attributable to the Parent Company's shareholders amounted to MSEK 15,847 (15,081). EPRA NAV (net asset value) was MSEK 20,877 (19,833), corresponding to SEK 132.55 (126.24) per share. Liquid funds plus unutilised long-term credit facilities amounted to MSEK 1,358 (2,232).

Interest-bearing liabilities

At the end of the period the loan portfolio amounted to MSEK 19,359 (18,831). Unutilised longterm credit facilities amounted to MSEK 1,014 (1,715).

The average fixed rate period was 2.4 (2.8) years and the average interest rate, corresponding to the interest rate level at the end of the period, was 2.6 (2.6) percent including effects of interestrate swaps. The average repayment period was 2.7 (3.0) years. The loans are secured by a combination of mortgage collateral and pledged shares.

In order to manage interest rate risk and increase the predictability of Pandox's earnings, interest rate derivatives, mainly interest rate swaps, are used. At the end of the period Pandox had interest rate swaps amounting to MSEK 10,992 and around 52 percent of Pandox's loan portfolio was hedged against interest rate movements for periods longer than one year.

Interest maturity profile

_		Interest	maturity			Interest rat	swaps	
(MSEK)	Loans	Interest swaps	Amount	Share, %	Volume	Share, %	Average interest swaps, % ¹	
< 1 year	19,359	-10,326	9,033	47	956	9	4.1	
1–2 year	_	738	738	4	738	7	3.0	
2–3 year	_	2,302	2,302	12	2,012	18	2.0	
3–4 year	_	806	806	4	806	7	2.1	
4–5 year	_	3,535	3,535	18	3,535	32	1.6

Total/net/average	19,359	0	19,359	100	10,992	100	2.1	

¹Excluding bank margin.

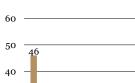

In order to reduce the currency exposure in foreign investment Pandox's aim is to finance the applicable portion of the investment in local currency. Equity is normally not hedged as Pandox's strategy is to have a long investment perspective. Currency exposures are largely in form of currency translation effects.

Interest maturity profile by currency

Interest maturity per year, %

Pandox uses interest rate derivatives to achieve a desired interest maturity profile. The market value of the derivatives portfolio is measured on each closing date, with the change in value recognised in profit or loss. Upon maturing, the market value of a derivative contract is dissolved entirely and the change in value over time thus does not affect equity.

On 30 June 2017, the net market value of Pandox's financial derivatives amounted to MSEK -589 (-735). The change in the quarter is mainly explained by an increase in the market interest rate relative to the fixed interest rate in the interest swap contracts.

Maturity structure interest-bearing debt

Year due (MSEK)	Loan maturity ²	Interest, loans ¹	Net interest, interest swaps, negative value ¹	Subtotal interest	Net interest, interest swaps, positive value ¹	Total interest
2017	247	3	29	33	0	33

Total	19,359	250	232	482	15	497

 $^{^1}$ Calculation based on ending balance as of June 30, 2017 and actual interest rates as of the same date and implied yearly interest expense for the different maturity periods.

Deferred tax

At the end of the period deferred tax assets amounted to MSEK 685 (748). These represent the book value of tax loss carryforwards which the Company expects to be able to use in upcoming fiscal years, and temporary measurement differences for interest rate derivatives.

Deferred tax liabilities amounted to MSEK 2,924 (2,582) and relate to temporary differences between fair value and the taxable value of Investment Properties, as well as temporary differences between the book value and the taxable value of Operating Properties.

² Excluding current amortisation.

Significant events after the period

No significant events have occurred after the period.

Employees

As of 30 June 2017, Pandox had the equivalent of 1,149 (1,420) full-time employees. Of the total number of employees, 1,113 (1,387) are employed in the Operator Activities segment and 36 (33) in the Property Management segment and in central administration.

Parent Company

Activities in the Pandox's property owning companies are administered by staff employed by the Parent Company, Pandox AB (publ). The costs of these services are invoiced to Pandox's subsidiaries. Invoicing during the period January-June 2017 amounted to MSEK 43 (37), and the profit for the period amounted to MSEK 94 (256).

At the end of the period the Parent Company shareholders' equity amounted to MSEK 3,159 (3,712) and interest-bearing debt of MSEK 5,110 (5,085), of which MSEK 2,075 (4,997) in the form of long-term debt.

Transactions with related parties

The Parent Company carries out transactions with subsidiaries in the Group. Such transactions mainly entail allocation of centrally incurred administration cost and interest relating to receivables and liabilities. All related party transactions are entered into on market terms.

Eiendomsspar AS owns 5.1 percent of 21 hotel properties in Germany and 9.9 percent of another hotel property in Germany, which were acquired by Pandox in 2015 and 2016. A temporary minority holding of 5.1 percent for the two hotel properties in Austria is expected to be dissolved in 2017.

Pandox's agreement with property owner Eiendomsspar AS on the operation of Grand Hotel Oslo came to an end on 25 April 2017 and has been replaced by an asset management agreement. Pandox has thereafter asset management agreements regarding nine hotels located in Oslo as well as for the Pelican Bay Lucaya Resort in the Grand Bahama Island, which are owned by Eiendomsspar AS, subsidiaries of Eiendomsspar AS and affiliates of Helene Sundt AS and CGS Holding AS respectively. During the second quarter revenue from the nine asset management agreements amounted to MSEK 0.8 (0.7), and revenue from Pelican Bay Lucaya amounted to MSEK 0.2 (0.2).

During the second quarter rental payments for Grand Hotel Oslo amounted to MSEK 12 (11).

Alternative performance measurements

Pandox applies the European Securities and Market Authority's (ESMA) guidelines for Alternative Performance Measurements. The guidelines aim at making alternative Performance Measurements in financial reports more understandable, trustworthy and comparable and thereby enhance their usability. According to these guidelines, an Alternative Performance Measurement is a financial key ratio of past or future earnings development, financial position, financial result or cash flows which are not defined or mentioned in current legislation for financial reporting; IFRS and the Swedish Annual Accounts Act. The guidelines are mandatory for financial reports published after 3 July, 2016. Reconciliations of Alternative Performance Measurements are available on pages 21-22.

Number of shares

At the end of the period, the total number of undiluted and diluted shares outstanding amounted to 75,000,000 A shares and 82,499,999 B shares. For the period, the weighted number of shares before and after dilution amounted to 75,000,000 A shares and 82,499,999 B shares.

Financial risk management

Pandox seeks to achieve the lowest possible financing costs while simultaneously limiting risks related to interest rates, foreign currencies and borrowings.

Pandox seeks to manage the risk that changes in interest rate levels could negatively affect Pandox's results. Pandox's objective is that interest rate exposure is managed so that increased costs as a result of reasonable changes in interest rates are compensated through higher revenues. Pandox seeks to achieve this objective through maintaining a loan portfolio with varying maturity dates and fixed interest periods.

Further, Pandox has developed and implemented systems and procedures designed to support continuous monitoring and reporting of interest rate exposures. Pandox enters into interest-rate swap contracts to obtain fixed interest rates on a certain part of its debt portfolio.

Pandox's balance sheet and income statement are exposed to changes in the value of the Swedish Krona, as certain of Pandox's assets are denominated in foreign currencies. Pandox seeks to hedge a part of this exposure through entering into loans in the local currency where Pandox's assets are located.

Pandox seeks to manage the risk that external financing may be difficult to access. Pandox's objective is to enter into long-term framework agreements.

Pandox aims to centralise, where possible, all Group borrowing in the Parent Company in order to gain flexibility and administrative benefits.

Risk factors

Pandox's business and market are subject to certain risks which are completely or partly outside the control of the Company and which could affect Pandox's business, financial condition and results of operations. These direct and indirect risks are the same for the Group and the Parent Company, with the exception that the Parent Company does not engage directly in hotel operations. Risks are the same both on a short and long-term basis.

Risk factors include, among others, the main following sector risks and risks related to the operations: (1) The value of Pandox's assets is exposed to macroeconomic fluctuations and the liquidity in the property market could decline. (2) Pandox is subject to risks in its business of repositioning and transforming hotel properties. (3) Pandox's costs of maintaining, replacing and improving its existing properties could be higher than estimated. (4) Pandox might be unable to identify and acquire suitable hotel properties. (5) Pandox may from time to time carry out acquisitions of new hotel properties, all of which are subject to risks. (6) Pandox may be unable to retain, and recruit, key personnel in the future. (7) Pandox depends on third party operators' reputation, brand, ability to run their businesses successfully and financial condition. (8) Pandox is exposed to environmental risks. (9) Pandox is exposed to interest rate fluctuations. (10) Pandox is exposed to the risk of being unable to refinance its facility agreements when they fall due. (11) Pandox is subject to certain risks common to the hotel industry, which are beyond the Company's control. (12) The hotel industry is characterised by intense competition and Pandox may be unable to compete effectively in the future. (13) New business models may enter the hotel industry. (14) The growth of Online Travel Agencies (OTAs) could materially and adversely affect Pandox's business and profitability.

Seasonal variations

The hotel industry is seasonal in nature. The periods during which the Company's properties experience higher revenues vary from property to property, depending principally upon location and the customer base served. Since the majority of the customers that stay at Pandox owned or operated hotels are business travellers, the Company's total revenues have historically been greater particularly in the second quarter. The timing of holidays and major events can also impact the Company's quarterly results.

Company information

Pandox AB (publ) is a Swedish limited liability company (corporate reg. no. 556030-7885) with its registered office in Stockholm, Sweden. Pandox was formed in 1995 and the company's B shares are listed on Nasdaq Stockholm since 18 June 2015.

Forward-looking statements

This report contains forward-looking statements. Such statements are subject to risks and uncertainties as various factors, many of which are beyond the control of Pandox AB's (publ), may cause actual developments and results to differ materially from the expectations expressed in this report.

Key figures not defined according to IFRS

A number of the financial descriptions and measures in this interim report provide information about development and status of financial and per share measurements that are not defined in accordance with the IFRS (International Financial Reporting Standards). Adjoining alternative financial measurements provides useful supplementary information to investors and management, as they facilitate evaluation of company performance. Since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies. Hence, these financial measures should not be seen as a substitute for measures defined according to the IFRS. Unless otherwise stated, the table to the left presents measures, along with their reconciliation, which are not defined according to the IFRS. The definitions of these measures appear on page 27.

Financial risk

1

Pandox owns, manages and develops hotel properties and operates hotels. The level of risk-taking is expressed in a loanto-value ratio of between 45 and 60 percent, depending on market development and the opportunities that exist. In addition to the loan-to-value ratio, equity/assets ratio, interest cover ratio, average cost of debt and interest-bearing net debt are other relevant measurements of Pandox's financial risk.

Growth and profitability

Pandox's overall goal is to increase cash flow and property value and thereby enable Pandox to have the resources for investments to support the Group's continued expansion. Since Pandox both owns and operates hotel properties, multiple indicators are needed to measure the Company's performance in relation to goals in this regard. Growth in cash earnings is Pandox's primary focus and this is also the basis for the dividend paid annually to the shareholders, i.e. 40–60 percent of cash earnings with an average dividend share of 50 percent over time. Measuring net operating income creates transparency and comparability between the Company's two operating segments and with other property companies. EBITDA measures Pandox's total operational profitability in a uniform way.

EPRA NAV (net asset value) and equity

2

Net asset value (EPRA NAV) is the collective capital Pandox manages on behalf of its shareholders. Pandox measures long-term net asset value based on the balance sheet adjusted for items that will not yield any payments in the near future, such as derivatives and deferred tax liabilities. The market value of Operating Properties is included in the calculation.

Portfolio overview

At the end of the period, Pandox's property portfolio comprised 121 (31 December 2016: 120) hotel properties with 26,450 (31 December 2016: 26,240) hotel rooms in ten countries. Pandox's main geographical focus in the Nordic, which represents approximately 58 percent of the portfolio by market value. Of the owned hotel properties, 106 are leased to third parties, which mean that approximately 83 percent of the portfolio market value is covered by external leases.

The majority of Pandox's tenant base consists of well-known hotel operators with strong hotel brands in their respective markets. The tenants are both Nordic-oriented hotel operators, such as Scandic Hotels Group, Nordic Choice Hotels, and operators focused on other regions and global markets such as Fattal (Leonardo), Rezidor (Radisson Blu), Hilton and NH Hotels.

Notes

Note 1 Accounting principles

Pandox follows the International Financial Reporting Standards (IFRS) - and interpretations (IFRIC) - as they have been adopted by the EU. This interim report has been prepared according to IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The interim report for the Parent Company has been prepared in accordance with Chapter 9 Interim Reports of the Swedish Annual Accounts Act. The Parent Company applies the Swedish Annual Accounts Act and RFR2 "Accounting principles for legal entities". RFR2 implies that the Parent Company of the legal entity applies all EU approved IFRS principles and interpretations, within the framework defined by the Swedish Annual Accounts Act, and taking into consideration the connection between accounting and taxation. Disclosures according to IAS 34.16A are, apart from in the financial reports and their corresponding notes, available also in other parts of the interim report. The accounting principles applied correspond to those described in Pandox's annual report for 2016.

Explanation to note 2

Pandox's operating segments consist of the Property Management and Operator Activities business streams. The Property Management segment owns, improves and manages hotel properties and provides external customers with premises for hotel operations, as well as other types of premises adjacent to hotel properties. The Property Management segment also includes eight asset management contracts for externally owned hotel properties. The Operator Activities segment owns hotel properties and operates hotels in such owned properties. The Operator Activities segment also includes one hotel operated under a long-term lease agreement and one hotel property under an asset management agreement. Nonallocated items are any items that are not attributable to a specific segment or are common to both segments. The segments have been established based on the reporting that takes place internally to executive management on financial outcomes and position. . Segment reporting applies the same accounting principles as those used in the annual report in general, and the amounts reported for the segments are the same as those for the Group. Scandic Hotels Group and Leonardo Hotels are tenants who account for more than 10 percent of revenues each.

Definitions

FINANCIAL INFORMATION

Average interest on debt, %

Average interest expenses based on interest rate maturity in respective currency as a percentage of interest-bearing debt.

Cash earnings, MSEK

EBITDA plus financial income less financial cost less current tax.

EBITDA, MSEK

Total net operating income less central administration (excluding depreciation).

Equity/assets ratio, %

Recognised equity as a percentage of total assets.

Gross profit, Property Management, MSEK Revenue less directly related costs for Property Management.

Gross profit, Operator Activities, MSEK Revenue less directly related costs for Operator Activities including depreciation of Operator Activities.

Growth adjusted for currency effects and comparable units Growth measure that excludes effects of acquisitions, sales and reclassifications as well as exchange rate changes.

Growth in EPRA NAV (net asset value growth), annual rate, % Accumulated percentage change in EPRA NAV, with dividends added back and proceeds from new share issue deducted, for the immediately preceding 12-month period.

Interest coverage ratio, times%

Profit before changes in value plus financial expense and depreciation, divided by financial expense.

Investments, excl. acquisitions, MSEK

Investments in non-current assets excluding acquisitions.

Loan-to-value ratio, %

Interest-bearing liabilities minus liquid funds as a percentage of the properties' market value at the end of the period.

Net interest-bearing debt, MSEK

Interest-bearing liabilities less cash and cash equivalents and short-term investments that are equivalent to cash and cash equivalents.

Net operating income, Property Management, MSEK Net operating income corresponds to gross profit for Property Management.

Net operating income, Operator Activities, MSEK Gross profit for Operator Activities plus depreciation included in costs for Operator Activities.

Net operating margin, Operator Activities, % Net operating income for Operator Activities in relation to total

revenue from Operator Activities.

Rounding off

Since amounts have been rounded off in MSEK, the tables do not always add up.

PER SHARE

Cash earnings per share, SEK

EBITDA plus financial income less financial expense less current tax, after non-controlling interest, divided by the weighted average number of shares outstanding.

Dividend per share, SEK

Proposed/approved dividend for the year divided by the weighted average number of outstanding shares after dilution at the end of the period.

Earnings per share, SEK

Profit for the period attributable to the Parent Company's shareholders divided by the weighted average number of shares outstanding.

Equity per share, SEK

Equity attributable to the Parent Company's shareholders, divided by the number of shares outstanding at the end of the period.

Net asset value (EPRA NAV) per share, SEK

Recognised equity, attributable to the Parent Company's shareholders, including reversal of derivatives, deferred tax asset derivatives, deferred tax liabilities related to the properties and revaluation of Operating Properties, divided by the total number of shares outstanding after dilution at the end of the period.

Total comprehensive income per share, SEK Total comprehensive income attributable to the Parent Company's shareholders divided by the weighted average number of share outstanding after dilution at the end of the period.

Weighted average number of shares before dilution, thousands The weighted average number of outstanding shares taking into account changes in the number of shares outstanding, before dilution, during the period.

Weighted average number of shares after dilution, thousands The weighted average number of outstanding shares taking into account changes in the number of shares outstanding, after dilution, during the period.

PROPERTY INFORMATION

Market value properties, MSEK

Market value of Investment Properties plus market value of Operating Properties.

Number of hotels

Number of owned hotel properties at the end of the period.

Number of rooms

Number of rooms in owned hotel properties at the end of the period.

RevPAR for Operating Properties (comparable units at constant exchange rates), SEK

Revenue per available room, i.e. total revenue from sold rooms divided by the number of available rooms. Comparable units are defined as hotel properties that have been owned and operated during the entire current period and the comparative period. Constant exchange rate is defined as the exchange rate for the current period, and the comparative period is recalculated based on that rate.

WAULT (Investment Properties)

Average lease term remaining to expiry, across the property portfolio, weighted by contracted rental income.
