# Record strong NOI but higher interest expense

## July-September 2023

- Revenue from Property Management amounted to MSEK 1,040 (967). For comparable units, the increase was 7 percent, adjusted for currency effects
- Net operating income from Property Management amounted to MSEK 920 (866). For comparable units, the increase was 7 percent, adjusted for currency effects
- Net operating income from Operator Activities amounted to MSEK 222 (193). For comparable units, the increase was 28 percent, adjusted for currency effects
- EBITDA amounted to MSEK 1,102 (1,037), an increase of 6 percent
- Cash earnings amounted to MSEK 558 (717), equivalent to SEK 3.04 (3.90) per share
- The comparison quarter includes government grants for Property Management and Operator Activities of MSEK 48 and MSEK 37 respectively. Adjusted for these amounts, EBITDA increased by 16 percent while cash earnings decreased by 12 percent
- Changes in property values amounted to MSEK –90 (572).
   Unrealised changes in value of derivatives amounted to MSEK 43 (815)
- Profit for the period amounted to MSEK 460 (1,687), equivalent to 2.48 (9.16) SEK per share
- During the third quarter Pandox acquired and took over Hilton Belfast

### January-September 2023

- Revenue from Property Management amounted to MSEK 2,762 (2,459). For comparable units, the increase was 12 percent, adjusted for currency effects
- Net operating income from Property Management amounted to MSEK 2,388 (2,170). For comparable units, the increase was 12 percent, adjusted for currency effects
- Net operating income from Operator Activities amounted to MSEK 493 (382). For comparable units, the increase was 89 percent, adjusted for currency effects
- EBITDA amounted to MSEK 2,754 (2,476), an increase of 11 percent
- Cash earnings amounted to MSEK 1,327 (1,542), equivalent to SEK 7.22 (8.39) per share
- The comparison period includes government grants for Property Management and Operator Activities of MSEK 116 and MSEK 141 respectively. Adjusted for these amounts, EBITDA and cash earnings increased by 24 and 3 percent respectively
- Changes in property values amounted to MSEK -768 (1,246), of which MSEK -971 is unrealised and MSEK 203 is realised. Unrealised changes in value of derivatives amounted to MSEK 31 (2,377)
- Profit for the period amounted to MSEK 545 (4,103), equivalent to 2.87 (22.28) SEK per share
- The loan-to-value ratio was 46.8 percent and the interest coverage ratio on a rolling twelve month basis was 2.8

# CEO comments

# Laying the foundations for value growth

#### Stable earnings in a solid hotel market

Demand in the hotel market was good in the third quarter. We have now reached a stabilised level based on current demand mix and seasonal patterns, even though international travel and large conferences and congresses have not recovered fully to 2019 levels. Demand in the leisure segment was good during the summer months and developed well in the business segment after the holiday period. Households have continued to prioritise experiences and travel despite higher living costs, and companies have in general continued to increase their travel. Looking at individual hotel markets, the UK and Ireland saw particularly strong development, mainly driven by very strong average price development.

In the third quarter Pandox's total revenue and net operating income increased for comparable units by 7 and 10 percent respectively, adjusted for currency effects. In absolute terms, income and net operating income were at their highest levels ever, driven by good operational development for both Property Management and Operator Activities. However, due primarily to fast and sharply rising market interest rates accompanied by higher financial costs, cash earnings decreased by 22 percent. Adjusted for pandemic-related government grants totalling MSEK 85 for the years 2020–2021, with final settlement in the third quarter of 2022, cash earnings decreased by 12 percent.

Given our interest hedge ratio of more than 70 percent, and the assumption that market rates are levelling out, conditions are improving for growth in cash earnings 2024.

#### Increased growth potential after investments

We are continuing to focus on long-term value creation by developing our existing portfolio. Pandox has an impressive toolbox for value creation which includes working actively with our tenants to develop the hotel products and increase the value of the hotel properties. During the first nine months of the year we invested around MSEK 730 in various value-increasing and cash flow-driving projects. Being able to invest even in a more uncertain world shows our strength.

Among the larger ongoing investments, I would like to highlight our remodel of Citybox in Brussels, where we are converting the concept from a traditional business hotel into an urban lifestyle product. The expansion of DoubleTree by Hilton Brussels City is another exciting project where we are extending the hotel to add 150 rooms, creating the largest hotel in Brussels and the city's most modern conference product. Other examples are Scandic Go Fridhemsplan where we have signed a new lease with Scandic and are now repositioning the hotel to target the budget segment, and Radisson Blu Glasgow where the hotel product is undergoing extensive modernisation. During the year we also completed significant renovations at Pullman Stuttgart Fontana and Quality Grand Borås, as well as at Hotel Pomander in Nuremberg which has now opened after two years of comprehensive renewal. The new hotel products are highly competitive and have great growth potential in their respective markets. Our completed and ongoing projects will make positive contributions to our earnings and value growth gradually in the years 2024 and 2025, with full effect equivalent to around MSEK 300 in annual net operating income in 2026. During the quarter we also decided on an extensive climate transition project for eight hotel properties within Operator Activities for an amount equivalent to MEUR 29. The project will continue for three years and is expected to generate cost savings of around MEUR 3 per year once completed.

#### Considerable value creation with new leases

Our latest lease with Strawberry is a good example of our value creation when renovating and signing new leases. The lease, signed after the end of the quarter, is for Hotel Mayfair in central Copenhagen which will be repositioned under the Hobo brand. There was significant interest from both Nordic and international hotel operators in signing a lease for the hotel. The lease is in line with our strategy of active value creation. It is also a milestone in a process that started back in 2020 when we

assumed operation of the hotel and began the remodel, which is expected to be finished in the second half of 2024 when the new lease goes into effect. The tenant is strong, the terms which include a good guaranteed minimum level are attractive and the transaction will significantly increase the value of the hotel property.

#### Continued good financial flexibility

Our banking partners have a high level of confidence in us and our refinancing risk is low. Around 22 percent of our credit facilities have a maturity of less than one year and most of these will mature in the second and third quarter of 2024. We have ongoing and positive discussions with lenders regarding refinancing. At the end of the quarter our loan-to-value ratio was 46.8 percent, which is at the lower end of our range, and our interest coverage ratio measured on a rolling twelve month basis was 2.8 times.

During the first nine months, net unrealised changes in value for the total property portfolio, amounted to MSEK -1,306. The good development in the hotel market has resulted in higher cash flows for the hotel properties, which to approximately two thirds have offset the negative effect from higher valuation yields. Through our international exposure we also had a positive exchange rate effect of MSEK 1,781 in the property value in the period.

Pandox's strategy is to create value through growth in cash flows driven by revenue-based rental income, efficient own operation of hotels and project development for the existing properties, combined with optimisation of the property portfolio, through both acquisitions and divestments. In general the transaction market for hotel properties is on the back burner and there are relatively large differences in price expectations between buyers and sellers. There are, however, pockets of opportunity which we are utilising when the price is right – as both a buyer and a seller. During the year we made three acquisitions, the most recent of which was Hilton Belfast. This includes operation of the hotel which we took over in July. The hotel is well invested and has a strong location in central Belfast. Divestment is an important tool that allows us to reallocate capital to investments with higher yield potential. One example is Intercontinental Montreal which we divested earlier this year in line with the property valuation before the pandemic.

#### Positive outlook

In the fourth quarter we expect continued stable demand in the hotel market with a normal seasonal pattern. Demand usually decreases in the second half of December before picking up again from mid-January. For 2024 we expect some RevPAR growth in the hotel market supported by a strong event calendar in Germany with Euro 2024 in June-July and stable market conditions in other markets. Hotel demand is dependent on economic activity and the biggest risk is associated with geopolitical consequences impacting the economy and travel.

Liia Nõu, CEO

# A leading hotel property company

Pandox is a leading hotel property owner in northern Europe with a focus on large hotels in important leisure and corporate destinations. Pandox's hotel property portfolio consists of 159 hotels with around 35.800 rooms in 15 countries.

Pandox's vision is to be a world-leading hotel property company.

The business concept is to own hotel properties and lease them to strong hotel operators under long-term revenue-based leases. Pandox's ability to act throughout the hotel value chain reduces risk and creates business opportunities.

### Strategy and business model

- Focus on hotel properties
   Large hotel properties in strategic locations
   Long-term revenue-based lease agreements with the best hotel operators and shared investments
   Sustainability with a business focus
   Geographical diversification to limit fluctuations
   Operating our own hotels reduces risk

## Financial targets and dividend policy

Loan-to-value ratio
Pandox's target is a loan-to-value ratio of
45–60 percent, depending on the market environment and
the opportunities that exist. The Company defines loan-tovalue ratio as interest-bearing liabilities less cash and cash
equivalents as a percentage of the market value of the
properties at the end of the period.

Dividend policy
Pandox's target is a dividend pay-out ratio of
30–50 percent of cash earnings, with an average pay-out
ratio over time of around 40 percent. Future dividends and
the size of any such dividends depend on Pandox's future
performance, financial position, cash flows and working
capital requirements.

### Presentation of the interim report

Pandox will present the interim report January-September 2023 to investors, analysts and the media in a conference call webcast on 26 October at 08:30 CEST. As a service to Pandox's stakeholders there will also be an external update on the hotel market

If you wish to participate via webcast, please use the following link: https://ir.financialhearings.com/pandox-q3-report-2023.

# Hotel market development July-September 2023

#### Positive quarter for the European hotel market

Demand and willingness to pay for hotel nights remained good in the third quarter. The summer months of July and August, which have seasonally higher leisure demand, developed well despite a more challenging economic environment for households, with increased living cost and higher interest rates. The trend whereby leisure travellers are prioritising trips and experiences over other consumption, partly supported by high levels of saving during the corona virus years, was evident in the third quarter too.

Domestic European airborne tourism has now exceeded the 2019 level. However, international arrivals to Europe have not fully recovered and for full year 2023, despite strong development over the summer, they are expected to be around 10 percent\* below the 2019 level. The gap to the 2019 level is, however, expected\* to be closed in 2024 with the help of continued strong growth in international travel. For the hotel market as a whole, the risks related to the travel consumption of private travellers are expected to be offset by an improved business and conference segment, as well as growing international travel over the coming quarters. Compared with the previous year the hotel market is now seeing increasingly strong year-on-year figures, especially in terms of occupancy rates. Increased average prices will therefore drive most of the growth going forward.

#### Stable occupancy development, good average prices\*\*

The third quarter of 2023 largely followed the same pattern as the second quarter, with some occupancy growth, while average room prices developed well compared with 2022 and the seasonal pattern was normal.

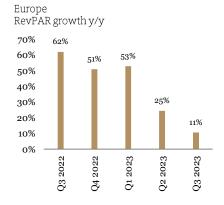

- Occupancy in Europe was 76 percent for the quarter compared with 75 percent the previous year (vs 2019: 79 percent).
- Average price development remained strong, with an increase of 9
  percent for the quarter compared with the previous year
  (vs 2019: +36 percent).
- Altogether RevPAR in Europe amounted to EUR 121 for the quarter, an increase of just over 10 percent on the previous year (vs 2019: +30 percent).
- Good international demand from the USA supported by a strong dollar rate. Incoming travel from Asia was still relatively low.

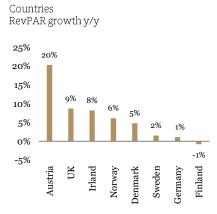

#### Positive RevPAR development in Pandox's markets\*\*

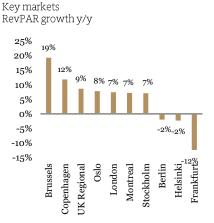

Despite a strong comparative quarter in 2022, Pandox's markets developed well in the third quarter.

- Occupancy in the Nordics was 72 percent, which is on a par with the corresponding period the previous year (vs 2019: 75 percent).
- The average price for the Nordics as a whole exceeded both the levels of the previous year and those in 2019 by 3 and 20 percent respectively.
- In the Nordics Denmark and Norway saw the strongest average price increase with 7 and 5 percent respectively compared with 2022 (vs 2019: +15 and +36 percent respectively).
- Development was positive overall for the Nordic capitals, with RevPAR growth of 6 percent compared with the same quarter the previous year. Helsinki is still the most sluggish market, partly explained by new hotel capacity and partly by lower demand compared with the other Nordic capitals.
- Copenhagen was strong with record demand for hotel nights at 25 percent above the 2019 level. At the same time around 4,300 hotel rooms were added to the market, which is why growth in RevPAR was only 3 percent higher than the 2019 level. Compared with the corresponding quarter in 2022, RevPAR did, however, increase by a full 12 percent.
- In Germany, trade fair and congress-related demand improved during the first three quarters of the year, albeit with total participant numbers below the 2019 level. Germany as a whole showed modest RevPAR growth of 1 percent for the quarter. The lower figure can in part be explained by decreased domestic travel during the summer in favour of increased international travel, as well as a calendar effect relating to trade fairs and congresses between the years in certain markets.
- Ireland and UK Regional (excl. London) had sustained strong
  figures compared with 2022. RevPAR for Ireland and UK Regional
  increased for the quarter by 8 and 9 percent respectively, with
  average price as the main driver. The strongest occupancy growth
  so far this year has been in London and Edinburgh, which is proof
  that international demand has come back to these markets in a big
  way.
- Supported by increased international travel and also by important American demand, continued good development was noted in Brussels during the quarter, with RevPAR growth of 19 percent compared with 2022.

# Financial development July-September 2023

#### Net sales

The Group's net sales amounted to MSEK 1,884 (1,673), an increase of 13 percent driven by good demand in the hotel market. For comparable units, net sales increased by 7 percent, adjusted for currency effects.

Revenue from Property Management amounted to MSEK 1,040 (967), an increase of 8 percent, supported by increased revenue-based rent amounting to a total of MSEK 421 (378). Adjusted for government assistance of MSEK 48 included in "Other property revenue" in the comparison quarter for the years 2020–2021, the increase was 13 percent. For comparable units, revenue increased by 7 percent, adjusted for currency effects.

Revenue from Operator Activities amounted to MSEK 844 (706), an increase of 20 percent. For comparable units, revenue increased by 6 percent and RevPAR by 8 percent, adjusted for currency effects.

#### Net operating income

Net operating income from Property Management amounted to MSEK 920 (866), an increase of 6 percent. For comparable units, net operating income increased by 7 percent, adjusted for currency effects.

Net operating income from Operator Activities amounted to MSEK 222 (193), an increase of 15 percent. Adjusted for government assistance of MSEK 37 as a cost reduction in the comparison quarter for the years 2020–2021, the increase was 42 percent. For comparable units, net operating income from Operator Activities increased by 28 percent, adjusted for currency effects.

Total net operating income amounted to MSEK 1,142 (1,059), an increase of 8 percent. Adjusted for government assistance in the comparison quarter, the increase was 17 percent. For comparable units, total net operating income increased by 10 percent, adjusted for currency effects.

#### Administration costs

Central administration costs amounted to MSEK -46 (-28), where the comparison quarter was impacted by cost-reducing, non-recurring items. The current level is more normal given the present structure of the business.

#### Depreciation

Depreciation within Operator Activities amounted to MSEK -72 (-65). Depreciation of MSEK -6 (-6) is included in administration costs.

#### Financial income and expense

Financial expense amounted to MSEK –427 (–249), of which MSEK –24 (–19) consists of accrued depreciation of capitalised loan arrangement fees. The increase is mainly explained by higher interest-bearing net debt, higher market interest rates and negative currency effects, and to a lesser extent by increased credit margins.

Financial income amounted to MSEK 7 (1). Financial expense associated with right-of-use assets amounted to MSEK -28 (-24).

#### Changes in value

Unrealised changes in property values amounted to MSEK -93 (585). The increased valuation yield had a negative impact of MSEK -403, while the hotel market's continued good average price development contributed to increased cash flow of MSEK 310 through Pandox's revenue-based leases. Altogether this represented a insignificant percentage decrease in value for the quarter.

Realised changes in value amounted to MSEK 3 (–13). Unrealised changes in value of derivatives amounted to MSEK 43 (815).

#### Current and deferred tax

Current tax amounted to MSEK –95 (–48). The increase in current tax compared with the previous year is explained by higher pre-tax profit in Sweden and Norway where Pandox has no tax loss carryforwards from previous years left to utilise. The prevailing interest rate climate is resulting in even higher tax expense due to the rules in place limiting deductible interest within the Group.

Deferred tax amounted to MSEK 26 (-346), explained by changes in value of investment properties and recognition of the tax loss carryforwards of previous years. See also Note 3 on page 22.

### Profit for the period

Profit for the period amounted to MSEK 460 (1,687) and profit for the period attributable to the Parent Company's shareholders amounted to MSEK 456 (1,684), which is equivalent to SEK 2.48 (9.16) per share.

#### Cash earnings

Cash earnings amounted to MSEK 558 (717), a decrease of 22 percent. Adjusted for government assistance totalling MSEK 85 for the comparison quarter, cash earnings decreased by 12 percent.

#### Financing

On 30 September 2023 cash and cash equivalents and unutilised credit facilities amounted to MSEK 2,988, compared with MSEK 3,340 as of 30 June 2023.

# Financial development January–September 2023

#### Net sales

The Group's net sales amounted to MSEK 5,011 (4,031), an increase of 24 percent. For comparable units, net sales increased by 20 percent, adjusted for currency effects.

Revenue from Property Management amounted to MSEK 2,762 (2,459), an increase of 12 percent, supported by increased revenue-based rent amounting to a total of MSEK 950 (734). Adjusted for government assistance of MSEK 116 included in "Other property revenue" in the comparison period for the years 2020–2021, the increase was 18 percent. For comparable units, revenue increased by 12 percent, adjusted for currency effects.

Revenue from Operator Activities amounted to MSEK 2,249 (1,572), an increase of 43 percent. For comparable units, both revenue and RevPAR increased by 31 percent, adjusted for currency effects.

#### Net operating income

Net operating income from Property Management amounted to MSEK 2,388 (2,170), an increase of 10 percent. For comparable units, net operating income increased by 12 percent, adjusted for currency effects.

Net operating income from Operator Activities amounted to MSEK 493 (382), an increase of 29 percent. Adjusted for government assistance of MSEK 141 as a cost reduction in the comparison period for the years 2020–2021, the increase was 158 percent. For comparable units, net operating income from Operator Activities increased by 89 percent, adjusted for currency effects.

Total net operating income amounted to MSEK 2,881 (2,552), an increase of 13 percent. Adjusted for government assistance in the comparison period, the increase was 26 percent. For comparable units, net operating income increased by 19 percent, adjusted for currency effects.

#### Administration costs

Central administration costs amounted to MSEK -144 (-94), where the comparison period was impacted by cost-reducing, non-recurring items and the current level is more normal given the present structure of the business.

### Depreciation

Depreciation within Operator Activities amounted to MSEK -211 (-189). Depreciation of MSEK -17 (-17) is included in administration costs.

### Financial income and expense

Financial expense amounted to MSEK -1,117 (-725), of which MSEK -68 (-55) consists of accrued depreciation of capitalised loan arrangement fees. The increase is mainly explained by higher interest-bearing net debt, higher market interest rates and negative currency effects, and to a lesser extent by increased credit margins.

Financial income amounted to MSEK 26 (11). Financial expense associated with right-of-use assets amounted to MSEK -80 (-69).

#### Changes in value

Unrealised changes in property values amounted to MSEK –971 (1,252). The increased valuation yield had a negative impact of MSEK –3,044, while the hotel market's continued good average price development contributed to increased cash flow of MSEK 2,073 through Pandox's revenue-based leases. Altogether this represented a value decrease of 1.7 percent during the period.

Realised changes in property values amounted to MSEK 203 (-6), two thirds of which is a capital gain in connection with the sale of InterContinental Montreal and the remainder is the net amount of the disposal of and insurance compensation received for Dorint Parkhotel Bad Neuenahr.

Unrealised changes in value of derivatives amounted to MSEK 31 (2,377).

#### Current and deferred tax

Current tax amounted to MSEK –238 (–140). The increase in current tax compared with the previous year is explained by higher pre-tax profit in Sweden and Norway where Pandox has no tax loss carryforwards from previous years left to utilise. The prevailing interest rate climate is resulting in even higher tax expense due to the rules in place limiting deductible interest within the Group.

Deferred tax amounted to MSEK 165 (-866), explained by changes in value of investment properties. See also Note 3 on page 22.

#### Profit for the period

Profit for the period amounted to MSEK 545 (4,103) and profit for the period attributable to the Parent Company's shareholders amounted to MSEK 527 (4,096) which is equivalent to SEK 2.87 (22.28) per share.

#### Cash earnings

Cash earnings amounted to MSEK 1,327 (1,542), a decrease of 7 percent. Adjusted for government assistance totalling MSEK 258 for the comparison period, cash earnings increased by 3 percent.

# Segment reporting July-September 2023

#### Property Management

	Jul-Sep		Jan-	Full-year	
MSEK	2023	2022	2023	2022	2022

#### July-September 2023

Revenue from Operator Activities amounted to MSEK 844 (706), an increase of 20 percent. For comparable units, revenue and RevPAR increased by 6 and 8 percent respectively, adjusted for currency effects.

Hotel demand was stable, while average price development remained

Occupancy at comparable hotels amounted to around 70 (71) percent and average price development was good.

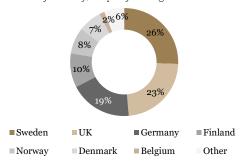

Hotels that performed the best during the quarter were Hotel Mayfair (Copenhagen, Denmark), Hotel Hubert (Brussels, Belgium), Hilton Garden Inn London Heathrow Airport (Heathrow, UK) and Novotel Den Haag (The Hague, Netherlands).

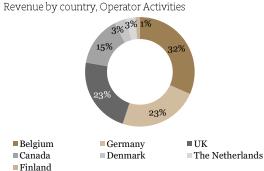

Net operating income amounted to MSEK 222 (193), equivalent to an operating margin of around 26 percent. For comparable units, net operating income increased by 28 percent, adjusted for currency effects

The comparison quarter includes government assistance as a cost reduction, for the years 2020-2021, in the amount of MSEK 37.

### July-September 2023

Revenue by country, Property Management

# Property portfolio

#### Property valuation

Pandox performs internal valuation of its hotel properties each quarter and Investment Properties are recognised at fair value. The property values are based on Pandox's internal valuation. External valuation of the properties is also conducted for comparative and quality purposes (see also Note E in Pandox's 2022 Annual Report).

Over the past twelve months, external valuations were performed for around 96 percent of the hotel properties and are in line with the internal valuations, measured in value. External valuations were performed in the third quarter for around 14 percent of Pandox's hotel property portfolio, measured in value.

The value of Operating Properties is reported for information purposes only and is included in EPRA NRV calculations. The Operating Properties' carrying amounts recognised in the condensed consolidated statement of financial position are equivalent to cost minus depreciation and any impairment losses and amounted to MSEK 9,261 (8,450) at the end of the period.

#### Market value of properties

At the end of the period, Pandox's property portfolio had a market value of MSEK 71,177 (69,231), of which Investment Properties accounted for MSEK 58,936 (57,563) and Operating Properties for MSEK 12,242 (11,669).

For the first nine months of the year unrealised changes in value of Investment Properties amounted to MSEK –971 net. The increased valuation yield of 0.34 percentage points had a negative impact of MSEK –3,044, while the hotel market's continued good average price development contributed to increased cash flow of MSEK 2,073 through Pandox's revenue-based leases.

Unrealised changes in the value of Operating Properties amounted to MSEK –335 (reported for disclosure purposes only) net. The increased valuation yield of 0.45 percentage points had a negative impact of MSEK –461 and increased cash flows had a positive impact of MSEK 126.

MCEU

# Portfolio overview

At the end of the period Pandox's property portfolio consisted of 159 (157) hotel properties with 35,851 (35,490) hotel rooms in fifteen countries, including the sub-markets England, Scotland, Wales, and Northern Ireland.

Pandox's main geographical focus is Northern Europe. Germany (25 percent) is Pandox's single largest geographical market, measured as a percentage of the property portfolio's total market value, followed by Sweden (22 percent), UK (20 percent), Belgium (8 percent) and Finland (7 percent).

More than 80 percent of the total portfolio market value is covered by external leases. Pandox's tenant base consists of highly reputable hotel operators with strong hotel brands.

On 30 September 2023 Investment Properties had a weighted average unexpired lease term (WAULT) of 14.4 years (15.0).

# Investments and sustainability

#### **Investments**

In the period January–September 2023, investments in property, plant and equipment, excluding acquisitions, amounted to MSEK 728 (625), of which MSEK 377 (306) was for Investment Properties and MSEK 351 (318) for Operating Properties.

At the end of the period, approved investments for ongoing and future projects amounted to around MSEK 1,800, of which around MSEK 350 is for projects that are expected to be completed in the remainder of 2023. The cost of maintenance in the third quarter of 2023 was MSEK 47 (39).

#### Examples of larger current and completed projects

Radisson Blu Glasgow
Operator Activities
Extensive renovation
Expected to be completed in 2024
Investment: approx. MGBP 14

Quality Hotel Grand, Borås Property Management Extensive renovation Completed Q2 2023 Investment: approx. MSEK 140

#### Sustainability strategy

#### Science-based targets

Pandox submitted a commitment letter to the Science Based Targets initiative (SBTi) on 30 November 2022. On 1 December 2022 Pandox also shared its targets with SBTi. These were produced in consultation with the Swedish Environmental Research Institute (IVL) in order to meet the requirements under the Paris Agreement. Target validation by SBTi is currently ongoing.

#### Focus areas

Pandox's sustainability work is aimed at promoting sustainable properties and operations and creating new business opportunities. The Company's overall sustainability goal is to offer tenants resource-efficient hotel properties that contribute to the UN Sustainable Development Goals, reduce climate impact and enable good management of climate risks.

Pandox's sustainability strategy is based on the Company's vision and business objectives, its impact on communities in terms of sustainability and climate change, and which issues the stakeholders consider to be important for Pandox to focus on. Current trends and the risks and opportunities identified by the Company are also taken into consideration.

Pandox has defined the most material sustainability topics and divided them into five focus areas:

- Environment and climate
- 2. Responsible and fair business
- 3. Guest satisfaction and security
- 4. Attractive and equal workplace
- 5. Inclusive local communities

#### Green investments

Pandox's most important contribution to more sustainable growth is through its development of profitable green properties. The goal is to create resource-efficient properties and operations that reduce Pandox's environmental and climate footprint, but that can also handle climate change impacts in the form of torrential rain and a warmer climate.

During the quarter Pandox decided on an extensive climate transition project for eight hotel properties within Operator Activities for an amount equivalent to MEUR 29. The project will continue for three years and means that Pandox is expected to meet the emission reduction target, that currently is being reviewed by SBTi, for Operator Activities. In addition, the project is expected to generate cost savings of around MEUR 3 per year once completed. The climate transition project consists of phasing out oil and gas, upgrading or replacing obsolete technical systems for energy optimisation, using renewable energy and changing behaviour. In addition, Pandox's green investment program in Operator Activities continues as before. The investment amounts to MEUR 8, with an expected return of around 20 percent, is expected to be completed in 2023. The purpose is to lower climate impact through energy and water reducing projects and technology installations. The target is a reduction in energy, gas and water use of 35 percent, 25 percent and 20 percent respectively, and a 20 percent reduction in CO<sub>2</sub> emissions.

# Financing

#### Summary

- As of 30 September 2023, the average repayment period was 2.4 (1.7) years, the average interest rate was
   4.2 (3.2) percent and the average fixed interest period was 4.1 (2.7) years
- In 2023 Pandox refinanced debt with a maturity of less than 12 months for a total corresponding amount
  of around MSEK 13,778, most of which is with international banks, to a five-year maturity
- As of 30 September 2023, 22 percent of credit facilities have a maturity of less than 12 months, compared with 44 percent at the beginning of the year
- As of 30 September 2023, around 76 percent of Pandox's interest-bearing net debt was secured against interest rate movements for periods longer than one year and the average fixed interest on Pandox's interest-rate derivatives was 1.2 (0.5) percent

#### Financial position and net asset value

At the end of the period the loan-to-value net was 46.8 (46.7) percent. Equity attributable to the Parent Company's shareholders amounted to MSEK 31,523 (30,731). EPRA NRV amounted to MSEK 38,154 (37,694), equivalent to SEK 207.53 (205.03) per share. Cash and cash equivalents plus unutilised credit facilities amounted to MSEK 2,988 (4,489) and there are several unpledged properties with a value of approximately MSEK 3,300 in total. In addition, there are additional unutilised credit facilities that, at any given time, fully cover the issued volume under the Pandox commercial paper programme.

#### Interest-bearing liabilities

At the end of the period the loan portfolio amounted to MSEK 34,082 (33,964), excluding loan arrangement fees. Unutilised credit facilities, after deduction of commercial paper, amounted to MSEK 2,240 (2,859) and the volume issued under the commercial paper programme amounted to MSEK 656 (699). Commercial paper is only used to optimise Pandox's financial cost via interest rate arbitrage.

Commercial paper aside, all Pandox's debt financing is bank financing only with loans secured by a combination of mortgage collateral and pledged shares. Pandox has a geographically diversified lender base consisting of 14 Nordic and international banks, and AMF Tjänstepension AB.

Per 30 September 2023, the average repayment period was 2.4 (1.7) years and the average interest rate level, including effects from interest-rate derivatives, but excluding accrued arrangement fees, was 4.2 (3.2) percent, which also is a reasonable approximation for the expected level at year end, given unchanged market rates. The increase in the average interest rates is mainly explained by higher market rates. At the end of the period the interest cover ratio (measured on rolling twelve months) was 2.8 times.

Short-term credit facilities maturing in less than twelve months amount to MSEK 8,028, of which MSEK 5,168 matures in the second or third quarter 2024.

In 2023, Pandox's refinancing transactions have amounted to a total corresponding amount of around MSEK 13,778, of which the majority with international banks with a five-year tenor.

# Interest rate cover ratio (R12M), times

#### Financial covenants

On group level, Pandox's financial covenants are loan-to-value and interest cover ratio.

<sup>&</sup>lt;sup>2)</sup>Average interest rate including margin and derivatives, excluding arrangement fee for loans.

<sup>&</sup>lt;sup>3)</sup>Part of the interest bearing debt is part of credit facilities in SEK, which can be drawn in multiple currencies, including

#### Currency and interest rate risk

To reduce the currency exposure in foreign investment Pandox's aim is to finance the investment in local currency. Equity is normally not hedged as Pandox's strategy is to have a long investment perspective. Currency exposures are largely in form of currency translation effects.

Pandox's bank financing is with variable interest rate. In order to manage interest rate risk and increase the predictability of Pandox's earnings, interest rate derivatives are used.

Per 30 September 2023, the gross nominal volume of interest rate derivatives amounted to MSEK 32,751, including forward starting swaps. At the same time, the nominal volume of interest rate derivatives amounted to MSEK 25,201 net. The net volume is the portion of Pandox's loan portfolio for which interest rates are hedged.

Approximately 76 percent of Pandox's net debt was thereby hedged against interest rate movements for periods longer than one year and the average fixed rate period was 4.1 (2.7) years.

Interest maturity profile 30 September 2023

	Total interest	maturit <del>y</del>	Interest maturity derivatives			
			Average intere			
Tenor (MSEK)	Amount <sup>1)</sup>	Share, %	Volume	Share, %	derivatives, %	
< 1 year	8,881	26	-	-	-	
1–2 year	1,580	5	1,580	6	-0.3	
2–3 year	2,291	7	2,291	9	-0.1	
3–4 year	2,939	9	2,939	12	0.4	
4–5 year	6,664	20	6,664	26	1.5	
> 5 year	11,728	34	11,728	47	1.8	
Sum	34,082	100	25,201	100	1.2	

<sup>1)</sup>Share of loans with an interest rate reset during the period.

The market value of the derivatives portfolio is measured on each closing date, with the change in value recognised in profit or loss. Upon maturing, the market value of a derivative contract is dissolved entirely and the change in value over time thus does not affect equity.

At the end of the period, the net market value of Pandox's financial derivatives amounted to MSEK 2,292 (2,261).

Financial sensitivity analysis 30 September 2023

Effect on earnings before value changes	Change	MSEK

Current fixed interest hedging, change in interest rates, without derivatives	+/- 1%	-/+333
Remeasurement of interest-rate derivatives following shift in yield-curves	+/- 1%	+/- 1.068

# Other information

#### Important events during and after the period

9 October 2023 Pandox signs lease agreement for Hotel Mayfair
12 September 2023 Nomination committee for the AGM 2024
20 July 2023 Pandox acquires Hilton Belfast
14 July 2023 Interim report January-June 2023
3 July 2023 Pandox signs lease agreement with Scandic

To read the full press releases, see www.pandox.se.

#### Ongoing disputes and insurance cases

No significant change has taken place in any disputes and insurance cases commented on previously.

#### **Employees**

At the end of the period, Pandox had the equivalent of 1,382 (1,171) full-time employees, based on number of worked hours translated to full-time employees. Of the total number of employees, 1,333 (1,125) are employed in the Operator Activities segment and 49 (46) in the Property Management segment and in central administration.

#### Parent company

Administration for activities within Pandox's property owning companies is provided by staff employed by the Parent Company, Pandox AB (publ). Pandox's subsidiaries are invoiced for these services.

#### Transactions with related parties

The Parent Company carries out transactions with subsidiaries in the Group. Such transactions mainly entail allocation of centrally incurred administration cost and interest relating to receivables and liabilities. All related party transactions are entered into on market terms.

Eiendomsspar AS owns 5.1 percent of 22 hotel properties in Germany and 9.9 percent of another hotel property in Germany. The acquisitions were made by Pandox in 2015, 2016 and 2019. Pandox has a management agreement regarding Pelican Bay Lucaya Resort in the Bahamas owned by affiliates of Helene Sundt AS and CGS Holding AS. During January—September 2023, revenue from Pelican Bay Lucaya amounted to MSEK 0.0 (0.6).

#### Risk and uncertainty factors

Pandox's general approach to business risk has not changed from the detailed account provided in the 2022 Annual Report. There is a risk that higher financing costs will lead to continued higher yield requirements. The effect from geopolitical instability and households' lower disposable income on hotel demand is uncertain.

#### Seasonal variations

The hotel industry is seasonal in nature. The periods during which the Company's properties experience higher revenues vary from property to property, depending principally upon the composition of demand and the hotel property's location. The second quarter is normally the strongest supported by high demand and willingness to pay from all sub-segments in the hotel market. Since most of the customers that stay at Pandox owned or operated hotels are business travellers, hotel demand is normally the weakest in the first quarter.

### Alternative performance measures

Pandox applies the European Securities and Market Authority's (ESMA) guidelines for Alternative Performance Measurements. The guidelines aim at making alternative Performance Measurements in financial reports more understandable, trustworthy and comparable and thereby enhance their usability. According to these guidelines, an Alternative Performance Measurement is a financial key ratio of past or future earnings development, financial position, financial result or cash flows which are not defined or mentioned in current legislation for financial reporting; IFRS and the Swedish Annual Accounts Act. Reconciliations of Alternative Performance Measurements are available on pages 23–25.

#### Number of shares

At the end of the period, the total number of shares before and after dilution amounted to 75,000,000 A shares and 108,849,999 B shares. For the third quarter 2023 the weighted number of shares before and after dilution amounted to 75,000,000 A shares and 108,849,999 B shares.

#### Comparison figures and periods

Figures in brackets are from the corresponding period the previous year for profit/loss items and year-end 2022 for balance sheet items, unless otherwise stated.

Stockholm, 26 October 2023

Liia Nõu, CEO

# Auditor's report

#### Introduction

We have reviewed the condensed interim financial information (interim report) of Pandox AB (556030-7885) as of 30th September 2023 and the nine-month period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

#### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

### Notes

#### Note 1. Accounting principles

Pandox AB follows the International Financial Reporting Standards (IFRS) and interpretations (IFRIC), as adopted by the EU. This interim report has been prepared according to IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act.

The interim report for the Parent Company has been prepared in accordance with Chapter 9 Interim Reports of the Swedish Annual Accounts Act. The Parent Company applies the Swedish Annual Accounts Act and RFR2 Accounting principles for legal entities. Under RFR2 the parent company of a legal entity applies all EU approved IFRS principles and interpretations within the framework defined by the Swedish Annual Accounts Act and taking into consideration the connection between accounting and taxation.

Derivatives are measured at fair value according to Level 2 in the fair value hierarchy under IFRS, based on inputs that are observable, either directly or indirectly.

The carrying amounts of interest-bearing liabilities and other financial instruments constitute a reasonable approximation of their fair values.

The interim financial statements are included on pages 1-27 and page 1-14 is thus an integrated part of this financial report.

The accounting principles applied are consistent with those described in Pandox's Annual Report for 2022.

### Note 2. Operating segments

Pandox's operating segments consist of the Property Management and Operator Activities business streams. The Property Management segment owns, improves and manages hotel properties and provides external customers with premises for hotel operations, as well as other types of premises adjacent to hotel properties. The Operator Activities segment owns hotel properties and operates hotels in such owned properties. The Operator Activities segment also includes one hotel property under an asset management agreement.

Non-allocated items are any items that are not attributable to a specific segment or are common to both segments, and financial cost for right-of-use assets according to IFRS 16. The segments have been established based on the reporting that takes place internally to executive management on financial outcomes and position. Segment reporting applies the same accounting principles as those used in the annual report in general, and the amounts reported for the segments are the same as those for the Group. Scandic Hotels Group and Fattal Hotels Group are tenants who account for more than 10 percent of revenues each.

For the third quarter and first nine months 2023 revenue-based rent in Property Management amounted to MSEK 421 (378) and MSEK 950 (734) respectively.

#### Note 3. Tax

#### Deferred tax

At the end of the period, deferred tax assets amounted to MSEK 335 (305). This consists mainly of the carrying amount of tax loss carryforwards which the Company expects to be able to utilise in future financial years.

Deferred tax liabilities amounted to MSEK 5,470 (5,538) and relate mainly to temporary differences between fair value and the taxable value of

Deferred tax liabilities amounted to MSEK 5,470 (5,538) and relate mainly to temporary differences between fair value and the taxable value of investment properties, as well as temporary differences between the carrying amount and the taxable value of operating properties, and temporary measurement differences for interest rate derivatives.

# Key figures not defined according to IFRS

A number of the financial descriptions and measures in this interim report provide information about development and status of financial and per share measurements that are not defined in accordance with the IFRS (International Financial Reporting Standards). Adjoining alternative financial measurements provides useful supplementary information to investors and management, as they facilitate evaluation of company performance. Since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies. Hence, these financial measures should not be seen as a substitute for measures defined according to the IFRS. Unless otherwise stated, the tables on pages 23-25 presents measures, along with their reconciliation, which are not defined according to the IFRS. The definitions of these measures appear on page 27.

#### Financial risk

1

Pandox owns, manages and develops hotel properties and operates hotels. The level of risk-taking is expressed in a loan-to-value ratio net of between 45 and 60 percent, depending on market development and the opportunities that exist. In addition to the loan-to-value ratio, interest cover ratio, average cost of debt and interest-bearing net debt are other relevant measurements of Pandox's financial risk.

#### Growth and profitability

2

Pandox's overall goal is to increase cash flow and property value and thereby enable Pandox to have the resources for investments to support the Group's continued expansion. Since Pandox both owns and operates hotel properties, multiple indicators are needed to measure the Company's performance in relation to goals in this regard. Growth in cash earnings is Pandox's primary focus and this is also the basis for the dividend paid annually to the shareholders, i.e. 30-50 percent of cash earnings with an average payout ratio of approximately 40 percent over time. Measuring net operating income creates transparency and comparability between the Company's two operating segments and with other property companies. EBITDA measures Pandox's total operational profitability in a uniform way.

# EPRA NRV (net asset value) and equity

3

Net asset value (EPRA NRV) is the collective capital Pandox manages on behalf of its shareholders. Pandox measures long-term net asset value based on the balance sheet adjusted for items that will not yield any payments in the near future, such as derivatives and deferred tax liabilities. The market value of Operating Properties is included in the calculation. See also page 27.

Net asset value according to EPRA NRV, EPRA NTA and EPRA NDV

EPRA NRV is the long-term net asset value and is based on the balance sheet adjusted for items where there will be no payments made in the near future, such as goodwill, financial derivatives, deferred tax liability and surplus value of Operating Properties (see page 8 for more information). EPRA NTA is the same as long-term net asset value with the difference that goodwill not attributable to deferred tax is to be added back and that deferred tax can be assigned a market value taking into account how the entity has carried out real estate transactions in recent years. As Pandox has no goodwill, has a long-term investment horizon, and does not report estimated actual deferred tax, the value of NRV and NTA in Pandox's case is the same. EPRA NDV is net asset value according to equity in the balance sheet adjusted for goodwill (Pandox has no goodwill) and surplus value of Operating Properties.

<sup>1)</sup>Number of shares at end of period.

#### **EPRALTV**

EPRA LTV is a key ratio that shows interest-bearing net debt in relation to the total market value of the property portfolio and other available assets and is used to create comparability between property companies. EPRA LTV is essentially the same as Pandox's previous definition of loan-to-value ratio, with the only difference that net operating receivables and operating liabilities are included in the EPRA measurement. As Pandox has no associated companies or joint ventures, and as there are no minority interests that are material for the Company, no further adjustments are made. Adjustment compared with loan-to-value ratio reported thus far is net of the following short-term operating items: Tax assets, accounts receivable, other receivables, provisions, tax liabilities, accounts payable and other short-term liabilities.

# Definitions

#### Financial information

Average interest on debt, %

Average interest expense based on interest maturity in respective currencies as a percentage of interest-bearing liabilities.

Cash earnings, MSEK

EBITDA plus financial income less financial expense less financial cost for right-of-use assets according to IFRS 16 less current tax reported in the income statement, adjusted for any unrealised translation effect on bank balances and non-controlling interest.

EBITDA, MSEK

Total gross profit less central administration (excluding depreciation).

EPRA NRV. MSEK

Recognised equity, attributable to the Parent Company's shareholders, including reversal of derivatives, deferred tax asset derivatives, deferred tax liabilities related to properties, and revaluation of Operating Properties.

EPRA NTA, MSEK

Recognised equity, attributable to the Parent Company's shareholders, including reversal of derivatives, deferred tax asset derivatives, deferred tax liabilities related to properties, and revaluation of Operating Properties.

EPRA NDV, MSEK

Recognised equity, attributable to the Parent Company's shareholders, including revaluation Operating Properties.

EPRALTV. %

Loan-to-value ratio net adjusted for net operating assets and operating liabilities.

Growth for comparable units adjusted for currency effects

Growth measure that excludes effects of acquisitions, divestments and reclassifications, as well as exchange rate changes.

Growth in EPRA NRV (net asset value growth), annual rate, %

Accumulated percentage change in EPRA NRV, with dividends added back and issue proceeds deducted, for the immediately preceding 12-month period.

Gross profit, Operator Activities, MSEK

Revenue less directly related costs for Operator Activities including depreciation of Operator Activities.

Gross profit, Property Management, MSEK

Revenue less directly related costs for Property Management.

Interest-bearing net debt, MSEK

Current and non-current interest-bearing liabilities plus arrangement fee for loans less cash and cash equivalents and short-term investments that are equivalent to cash and cash equivalents. Long-term and short-term lease liabilities according to IFRS 16 are not included.

Interest cover ratio, multiple

EBITDA less financial expense for right-of-use assets divided by net interest expense, which consists of interest expense less interest income.

Investments, excl. acquisitions, MSEK

Investments in non-current assets excluding acquisitions.

Loan-to-value ratio net, %

Interest-bearing liabilities, including arrangement fee for loans, less cash and cash equivalents as a percentage of the properties' market value at the end of the period.

Net operating income Operator Activities, MSEK

Gross profit for Operator Activities plus depreciation included in costs for Operator Activities.

Net operating income, Property Management, MSEK

Net operating income corresponds to gross profit for Property Management.

Net operating margin, Operator Activities, %

Net operating income for Operator Activities as a percentage of total revenue from Operator Activities.

Rounding off

Since amounts have been rounded off in MSEK, the tables do not always add up.

#### Per share

Cash earnings per share, SEK

Cash earnings divided by the weighted average number of shares outstanding after dilution at the end of the period.

Comprehensive income per share SEK

Comprehensive income attributable to the Parent Company's shareholders divided by the weighted average number of shares outstanding after dilution at the end of the period.

Dividend per share, SEK

Proposed/approved dividend for the year divided by the weighted average number of outstanding shares after dilution at the end of the period.

Earnings per share, SEK

Profit for the period attributable to the Parent Company's shareholders divided by the weighted average number of shares outstanding.

EPRA NRV, NTA, NDV per share, SEK

EPRA NRV, NTA, NDV divided by the total number of shares outstanding after dilution at the end of the period.

Weighted average number of shares after dilution, thousands

The weighted average number of outstanding shares taking into account changes in the number of shares outstanding after dilution during the period.

Weighted average number of shares before dilution, thousands

The weighted average number of outstanding shares taking into account changes in the number of shares outstanding, before dilution, during the period.

### Property information

Market value properties, MSEK

Market value of Investment Properties plus market value of Operating Properties.

Number of hotels and rooms

Number of owned hotel properties and rooms at the end of the period.

RevPAR for Operating Properties (comparable units at constant exchange rates), SEK  $\,$ 

Revenue per available room, i.e. total revenue from sold rooms divided by the number of available rooms. Comparable units are defined as hotel properties that have been owned and operated during the entire current period and the comparative period. Constant exchange rate is defined as the exchange rate for the current period, and the comparative period is recalculated based on that rate.

WAULT (Investment Properties)

Weighted average unexpired lease term across the property portfolio, weighted based on the 2019 rental income level (which is an approximation of a normal financial year not affected by the Covid-19 pandemic
